2nd-year BS Computer Science student at FAST-NUCES with a strong foundation across the full software stack — from low-level systems and assembly to object-oriented design, web development, databases, and AI. Experienced in Python, Java, C/C++, PHP, with working knowledge of Linux/Ubuntu and Git-based workflows. A consistent builder who has taken multiple projects from concept to completion. Looking for an internship to apply these skills in a real professional environment and grow alongside an experienced team.

EDUCATION

BS Computer Science <i>National University of Computer and Emerging Sciences (FAST-NUCES) — Islamabad, Pakistan</i>	2024 – Present
FSc Pre-Engineering <i>Army Public Degree College — Karachi, Pakistan</i>	2022 – 2024

TECHNICAL SKILLS

Languages: C, C++, Python, Java, PHP, Dart (Flutter)
Web: HTML, CSS, JavaScript, PHP
Databases: MySQL, SQL
Game Dev: C++, GoDot
Tools: Git, GitHub, Linux/Ubuntu, VS Code, IntelliJ IDEA

PROJECTS

AI-Based City Planner <i>Python</i> Engineered an intelligent city planning system solving multi-zone allocation.	2024
Hospital Management System <i>PHP, Java, HTML, CSS, MySQL — Web Application</i> - Built a web-based system handling patient records with modules for doctor assignments, appointments, and treatments. - Designed a fully normalized relational database schema and a dynamic PHP backend.	2024
Event Management System <i>Java, OOP, MVC, Design Patterns — Desktop Application</i> Developed a desktop application. Applied architecture with clearly separated layers	2024
Sonic Classic Heroes & Buzz Bomber <i>C++, SFML — Game Development</i> - Rebuilt the classic Sonic game from scratch in C++ and SFML. - Developed Buzz Bomber, a 2D shooting game, as a first solo project applying fundamental programming and game-loop design from the ground up.	2023 – 2024

CERTIFICATIONS & ACHIEVEMENTS

Bug Catcher — NASCON Competition

2025

National Student Convention (NASCON) — FAST-NUCES

- Competed in a fast-paced bug-hunting challenge, identifying and fixing errors programs under strict time pressure.

Machine Learning for All

2025

University of London (Coursera)

- Completed coursework covering supervised and unsupervised learning, model evaluation, and real-world AI applications.

Git and GitHub

2025

IBM (Coursera)

- Learned version control workflows, branching strategies, and collaborative development using Git and GitHub.

EXTRACURRICULAR ACTIVITIES

Google Developer Groups on Campus (GDGoC) — Member

2025 – Present

FAST-NUCES, Rawalpindi

- Participated in technical workshops, coding sessions, and developer community events.
- Volunteered at NASCON, assisting with event coordination, logistics, and participant support.
